

	Executive Summary
E.1	Overview
E.2	Global electricity scenario
E.3	Aluminium wire rod usage & forecast
I	Introduction
1.1	Background
1.2	Report coverage
1.3	Approach to the study
1.4	Abbreviations
II	World aluminium usage - An overview
2.1	Primary aluminium: capacity and production
2.2	World aluminium usage across regions
2.3	World aluminium usage by product groups
III	Aluminium Wire rod, cables & conductors: Technology & Applications
3.1	Overview
3.2	Comparison of copper and aluminium as conducting materials
3.3	Production process of wire rod & cables
3.4	Application of aluminium wire rod, cables and conductors
3.5	Technology developments
IV	World Aluminium Wire rod, Cables & Conductors - Usage and Forecast Across Regions
4.1	Overview
4.2	North America: Aluminium wire rod, cables & conductors
4.3	South America: Aluminium wire rod, cables & conductors
4.4	EU28: Aluminium wire rod, cables & conductors
4.5	Rest of Europe: Aluminium wire rod, cables & conductors
4.6	China: Aluminium wire rod, cables & conductors
4.7	India: Aluminium wire rod, cables & conductors
4.8	Rest of Asia Pacific: Aluminium wire rod & cables
4.9	Middle East & Africa: Aluminium wire rod & cables
V	Renewable Energy & its Impact on Aluminium Wire, Cables & Conductors
VI	Conclusion
Appendix I	Advantages of using aluminium in the E&E sector

E.1	World aluminium wire rod usage and forecast by region, 2017-2025 (000 tonnes)
2.1	World aluminium usage across regions, 2018
3.1	Aluminium & copper: Comparison of properties
3.2	Aluminium based conductors: Alloys & characteristics
4.1	World aluminium wire rod usage and forecast by region, 2017-2025 (000 tonnes)
4.2	North America: Select major suppliers of aluminium cables & conductors
4.3	USA: Total electric power generation capacity and projections by source, 2017-2035 (GW)
4.4	North America: Forecast of aluminium wire rod usage by end-use sectors, 2017-2025 (000 tonnes)
4.5	South America: Select major suppliers of aluminium cables & conductors
4.6	Brazil: Electric power generation capacity, 2017 (GW)
4.7	Brazil: Wire rod production, 2014-2016 (000 tonnes)
4.8	South America: Forecast of aluminium wire rod usage by end-use sectors, 2017-2025 (000 tonnes)
4.9	EU28: Select major suppliers of aluminium cables & conductors
4.10	EU28: Maximum electricity installed capacity, 2006-2016 (GW)
4.11	Summary of key EU targets in the short, medium and long term
4.12	Europe: Transmission line circuit length in km, (As of December 2016)
4.13	EU28: Forecast of aluminium wire rod usage by end-use sectors, 2017-2025 (000 tonnes)
4.14	Rest of Europe: Select major suppliers of aluminium cables & conductors
4.15	Rest of Europe: Electricity Generation across select countries, 2007-2017 (TWh)
4.16	Turkey: Licensed installed capacity, 2017 (GW)
4.17	Turkey: Transmission line length by voltage, 2016 & 2017
4.18	Rest of Europe: Forecast of aluminium wire rod usage by end-use sectors, 2017-2025 (000 tonnes)
4.19	China: Select major suppliers of aluminium cables & conductors
4.20	China: Total electricity installed generation capacity, 2017 (GW)
4.21	China: Average annual investments for transmission & distribution networks, 2001-2040 (US\$ billion)
4.22	China: Forecast of aluminium wire rod usage by end-use sectors, 2017-2025 (000 tonnes)
4.23	India: Select major suppliers of aluminium cables & conductors
4.24	Indian electricity generation: Total capacity, GW (as of March 2018)
4.25	India: Transmission line expansion - cumulative (ckm)
4.26	Transmission lines: Capacity added during 2017 (ckm)
4.27	India: Aluminium wire rod production by primary producers, 2016-17 (000 tonnes)
4.28	India: Forecast of aluminium wire rod usage, 2017-2025 (000 tonnes)

4.29	Wire and cable consumption across select countries in Rest of Asia pacific, 2012-2016 (US\$ million)
4.30	Rest of Asia Pacific: Select major suppliers of aluminium cables & conductors
4.31	Electric power generation capacity in select ASEAN countries, (2017)
4.32	Japan: Transmission & distribution lines length, km (as of March 2016)
4.33	South Korea: Development of power transmission & distribution lines, 2007-2017 (km)
4.34	ASEAN countries: Transmission line length
4.35	Japan: Aluminium electrical conductor production, (tonnes)
4.36	Rest of Asia Pacific: Forecast of aluminium wire rod usage by end-use sectors, 2017-2025 (000 tonnes)
4.37	Middle East & Africa: Select major suppliers of aluminium cables & conductors
4.38	UAE: Length of Transmission & Distribution Lines
4.39	Middle East & Africa: Forecast of aluminium wire rod usage by end-use sectors, 2017-2025 (000 tonnes)

E.1	World aluminium wire rod usage trend, 2014-2018 (000 tonnes)
E.2	World electricity generation trend, 2007 to 2017 (TWh)
E.3	World electricity generation by region, 2017 (%)
E.4	World aluminium wire rod usage, 2018 vs 2025
2.1	World aluminium usage, 2014-2018 (000 tonnes)
2.2	Primary aluminium production trends, 2008-2018 (million tonnes)
2.3	World aluminium usage by product types, 2018 (%)
3.1	Classification of cables & conductors
3.2	Wire rod: Raw material to end product
4.1	World aluminium wire rod usage trend, 2014-2018 (000 tonnes)
4.2	World aluminium wire rod usage, 2018 vs 2025 (%)
4.3	North America: Wire and cable consumption, 2012-2016 (US\$ billion)
4.4	North America: Electricity generation trend, 2007-2017, (TWh)
4.5	North America: Electricity generation by countries, 2007-2017, (TWh)
4.6	USA: Electricity prices by service category (Reference case), 2017 (cents / kWh)
4.7	North America: Aluminium wire rod usage by end use segments, 2017 (%)
4.8	South America: Wire and cable consumption, 2012-2016 (US\$ billion)
4.9	South America: Electricity generation trend, 2007-2017, (TWh)
4.10	South America: Electricity Generation by countries, 2007-2017 (TWh)
4.11	South America: Aluminium wire rod usage by end use segments, 2017 (%)
4.12	Western Europe: Wire and cable consumption, 2012-2016 (US\$ billion)
4.13	EU28: Electricity generation trend, 2006-2016, (TWh)
4.14	EU28: Electricity Generation by countries, 2017 (%)
4.15	EU28: Maximum electricity installed capacity by source, 2016 (GW)
4.16	EU: Investment needs in new electricity interconnectors (in billion €)
4.17	EU28: Aluminium wire rod usage by end use segments, 2017 (%)
4.18	Eastern & Central Europe: Wire and cable consumption, 2012-2016 (US\$ billion)
4.19	Rest of Europe: Aluminium wire rod usage by end use segments, 2017 (%)
4.20	China: Wire and cable consumption, 2012-2016 (US\$ billion)
4.21	China: Electricity generation trend, 2007-2017, (TWh)
4.22	China: Electricity installed capacity projections by 2040 (GW)
4.23	China: Aluminium wire rod usage by end use segments, 2017 (%)
4.24	India: Electricity generation trend, 2007-2017, (TWh)
4.25	India: Total electrical energy consumption and projection (TWh)
4.26	India: Trend in aluminium wire rod usage, 2012 to 2017 (000 tonnes)
4.27	India: Aluminium wire rod usage by end use segments, 2017 (%)

4.28	Rest of Asia Pacific: Electricity generation trend, 2007-2017, (TWh)
4.29	Rest of Asia Pacific: Electricity Generation by countries, 2017 (%)
4.30	Rest of Asia: Electric power generation by source across select countries, 2017 (TWh)
4.31	Rest of Asia Pacific: Aluminium wire rod usage by end use segments, 2017 (%)
4.32	Middle East & Africa: Electricity generation trend, 2007-2017, (TWh)
4.33	Middle East & Africa: Electricity Generation, 2017 (%)
4.34	Electricity generation by source, 2017 (%)
4.35	South Africa: Electricity generation capacity, 2017 (%)
4.36	Middle East & Africa: Aluminium wire rod usage by end use segments, 2017 (%)
5.1	World renewable energy capacity, 2007-2016 (GW)
5.2	World renewable energy capacity by source (as of 2016)
5.3	Renewable electricity capacity additions by source, 1994-2022 (GW)
